CASH AND ONE PRICE WHERE YOUR MONEY GOES FARTHEST

Ollie Roberts

JASPER, MO.

BAD WEATHER INTERFERED WITH SALES DAY.

Sales day last Saturday was considerably interfered with by the cold rain continuing most of the day.

Very little of the live stock listed was brought in and very few farmers came to town. The stores did a fair business during the afternoon.

They may tell the scandal stories in the small towns, but in the large towns they print them in the newspapers—take your choice.—McCune (Kans.) Record.

The fire upon the hearth is low,
And there is stillness everywhere;
Like troubled spirits here and there
The firelight shadows round me creep.
A childish treble breaks the gloom,
And softly from a farther room
Comes: "Now I lay me down to sleep."
And, somehow, with that little prayer,
And that sweet treble in my ears,
My thoughts go back to distant years,
And linger with a dear one there;
And as I hear the child's "amen,"
Crouched at her side I seem to be,
My mother's faith comes back to me,
A mother holds my hands again.
Oh, for an hour in that dear place!
Oh, for the peace of that dear time!
Oh, for that childish trust sublime!
Oh, for a glimpse of mother's face!
Yet, as the shadows round me creep,
I do not seem to be alone—
Sweet magic of that treble tone—
And "Now I lay me down to sleep."
—Author unknown.

JASPER MAN MARRIED IN JOPLIN

Marriage of Charles L. Grim and Miss Riethel Wiles Taken Place in First Baptist Church.

Charles L. Grim, eldest son of D. H. Grim and wife of the Blue Star neighborhood north of Jasper, was united in marriage to Miss Riethel Wiles of Joplin last evening at 6 o'clock at the First Baptist Church of that place. After the ceremonial rites a wedding reception was held at the home of the bride's parents, Mr. and Mrs. Lee M. Wiles, 627 Jackson avenue.

Charley Grim was raised in Jasper and graduated from the Jasper High School. During the recent war he served in Company C, 110th regiment of the eighty-ninth division and saw some of the severest fighting in which the eighty-ninth was engaged. He has many friends here who will be glad to hear of his happiness.

JASPER MAKES LAMAR ASHAMED OF HIMSELF.

Jasper isn't as big a town as Lamar, but it certainly makes us ashamed of ourselves when it comes to standing by our Chamber of Commerce. Here is a personal statement from the Secretary C. L. Hayzlett:

"We have a membership committee that takes care of what shall be paid in by each firm, and it is ruled by the size of the business the firm does. We do not have a membership classification.

Our banks have been paying ten dollars and five dollars, elevators, five dollars; lumber yards, five dollar; garages, three dollars; groceries; three dollars; hardware, three dollars; drug stores, three dollars; bakery, two dollars; M. D's five dollars; veterinary, three dollars; telephone company, three dollars; millinery stores two dollars; tire shop, two dollars, individual members from one to two dollars, mail carriers pay one dollar per month."

Jasper has money to help fix roads. She doesn't have to charge the farmers anything to sell their stuff at the monthly salesday, and her last sale totaled over \$2700.

Jasper, on this point of business patriotism, and community loyalty makes Lamar ashamed of herself.—Lamar Democrat.

The biggest things, outside of sanitation, that science has done for mankind are the results of the vaccines. Before vaccination for smallpox was developed this eruptive scourge was one of the terrors of the race. The fatal typhoid is almost completely stopped by the use of the vaccine. There were fewer cases of typhoid in the World War than there were at Camp Chickamauga in the war of Spain. Anti-toxin ipped diphtheria of 95 percent of its fatal toll. There is now a vaccine that absolutely prevents diphtheria. Of all the horrors that ever attacked the human mind and body, was there ever anything to equal hydrophobia? Yet Pasteur's vaccine has made it practically innocuous. The serum that was finally developed to combat the flu saved thousands of lives. Still, in the face of these marvelous achievements of Science we have those who turn away from this savior of the race, to ignorant and designing quacks.—Lamar Democrat.

FATAL ACCIDENT AT COAL BANK

Charley King Killed Working on Robt. Rex Place.

Charley King, son of Ben King, who lives in the Boston neighborhood, together with his father were draining the water from a coal bank on the Robt. Rex place, 1 1/2 miles east of Boston yesterday morning about 10 o'clock, when a slide of dirt and stone fell in on the young man as he was opening up a ditch. King was entirely covered by the material that fell on him.

Drs. Knott and Schooler were both called, but the young man was dead when he was taken out. Deceased was about 25 and had been married but was not living with his wife. Funeral arrangements had not been made when the paper went to press.

PASSENGER TRAINS SNOW-BOUND AND THEN FROZEN IN.

A copy of the Bend, Oregon, Bulletin left at this office by Miss Nora Fox describes a situation out in that country that we who live under the sunny skies of southern Missouri know of only from hearsay.

The paper speaks of a snow-bound passenger train 7 miles from a station, the snow sliding down from the higher places until the train was almost entirely covered up. Food was brought for two or three days seven miles over the snow by an Indian packer. A relief train reached them just before the fuel gave out.

The paper states that seven passenger trains were snow-bound in the Columbia Gorge.

An account is also given of a 36-hour down-pour of rain that caused a flood of both the Santiam and Willamette Rivers the like of which could not be remembered by the oldest inhabitant.

SPECIAL MEETING EASTERN STAR CHAPTER.

A special meeting of Peerless Chapter, O.E.S., will be held Friday night this week for initiation work.

The Hen Has it on Ma.
The coal-oil light is burning bright—
(It will, sometimes, when it feels right);
Pa sets there reading, sleek as sin,
The latest poultry bulletin;
Then, half to Ma, and half to me,
Pa ups and speaks: I see, says he,
"As how correct illumination
Will make hens lay like all Creation;
I've thought it out; the help's all hired;
I guess I'll have the henhouse wired"
Ma stops and peers and sews away,
Does Ma, and then I hear her say:
"I wish I was a blamed old hen:
Maybe they'd wire the homestead
then!"

Numetal... Weather Strips

Does the cold wind blow in around your doors and windows?

You can prevent this at a very small cost by equipping your doors and windows with Numetal Weather Strip.

This Weather Strip is made from spring brass, which will adjust itself to the expansion and contraction of the wood in the doors and windows.

It will cut down your coal bills and make your home more comfortable.

No loose rattling windows when they are fitted with the Numetal Weather Strip.

BURGNER-BOWMAN LUMBER CO.
